Iarann Grudaith is an island nation with a dictatorship as the government, led by Supreme Leader Georgia Grudaith. Their dictatorship does make very nice websites, though.

They're a monarchy ruling over Cuba, Hispaniola, Florida, and Lucayan. It has a high HDI, much higher than the IRL Cuba.

Their founding mother, Nicole Greenwich, appeared seemingly out of nowhere to lead the Arcadian Revolution, ruled for ten years, and then died from influenza at her writing desk in 1802.

The decade of the 2020's, in the Lusitanian Federation's timeline, was marked by conflict and internal rebellion. In the United States, conservative President, Tom Fitzpatrick, had to deal with a sector of the population, as well as a sector of the military, deciding to form their own country. This event was sometimes referred to as the "Snowflake rebellion."

84% of their population is 'inkling', which if I recall correctly means that they're those squid-octopus-haired folks.

Yup, I recall correctly.

I didn't see any particular note specifying the connection, but then the factbook is still rather impressively WIP.

The *People's Front of Iudaea* and the *Iudaeen People's Front* are not only differing factions within the Iduaeen Civil War, but are belligerents against one another. The *People's Front of Iudaea* recently dealt a stinging defeat to its counterpart at the battle of 9th Aelia Capitolina last August.
