I fail to see how it's degenerate. The economy is in shambles due to it being a newfounded country and to almost incessant fighting, and cultural degeneracy has been all but eradicated within.

Skip.

Your country is pointlessly anti-semitic, totalitarian and fascistic. I cannot see that leading to anything other than degradation both in genetic quality and culture (seeing as how anything the government doesn't like is censored and burnt)

It's not America, but I would live in it anyways.

Hello, as you may know, our nation is the USA but set during the 1980s, we aim to be historically accurate and only us stats that would be appropriate to the time period, but in some cases, we do deviate from this aim just for fun.

In other words, we don't use NS Stats
