We do not use NS Stats. Seriously, they make no sense for this particular nation.

Set in an alternate year 1127, the Nordic Commonwealth is a hegemonic republic ruled by a warrior aristocracy with an economy based on raiding and trade.

Some sailors had a very bad time. Maybe that is how their nation was founded?

edit: ninja. Above nation: They have a strong warrior culture. Seem like raiders or perhaps even knights?

A civilization with an over 3,000 year history of lizard people killing each other and enslaving everyone else. Now they've finally calmed down and formed a modern westernized constitutional monarchy. (long live Emperor Yoshio!)

Note: Any factbook entries over a year old are severely out of date and may be subject to extreme revision and retconning soon. If you have questions on anything about Ru, please feel free to ask.
