Supreme Man is furious. And in a rage. He grabs Deimos, lifts the natural satellite off its orbit, and flings it with full force into Mars.

Deimos builds up kinetic energy as it speeds towards Mars. Catgirls and Martians fighting on Earth watch their televisions and digital screens in shock as the kinetic energy of Deimos smashes into Mars explosively and essentially covers the entire surface of the planet in fire and dust. The shock ripples through the soldiers fighting on Earth. And many of them, mostly Martian and Catgirl, begin protesting why there are even fighting this foreign war in the first place.

The majority of life on Mars essentially dies. Underground facilities on Mars now remain dormant as they have lost contact with the outside world. The remaining life on Mars is only alive in underground bunkers and vaults.

Supreme Man smiles. And he flies back to Earth to fight once again.

The island of the Galapagos and the main power of South America controlling the West of South America. Militaristic and authoritarian with a troubled past and an uncertain future with stability at an all time low due to a lost war and unpopular occupiers.

Kekistani forces stationed in Turkmenistan near the Caspian sea held their ground, resulting in a panhandle denying the Mongols access to the Caspian Sea. While Bashkortostan, Mississippi, Bavaria and Montana begin supplying the newly formed Mongol Empire with weapons.

UNAH becomes extremely unstable, following their territory expansion, finally, a coup by fans of the band Tally Hall happens, and the king gets overthrown and replaced with a so called "banana man". UNAH also changes its name to The Mechanical Bananadom of Tally Hall (MBTH) after the coup.

No, it's clearly not yours, you didn't even write the thread, you did not come up with the idea for this thread, you did not make the maps, you are nothing but a participant. But, you have proven yourself to be very problematic, so we have every right to void your posts, nearly everything you wrote in this thread can be considered as threadjacking, and consider yourself as the luckiest person in this entire website for not getting kicked in the ass by the mods.

Stop this, or I will take matters on my own hands.

Tehran's name is Kekstantinople.

Anyway, The Kekistani government condemns the Mongols for mercilessly invading nations that stands in its path and calls the International Community to do something against them, and before the Mongol armies can reach Kekstantinople, Kekistan capitulates, several government figures fleeing to Bavaria, and Kekistan is now under a provisional government established by the Mongols.

(Where is Kekistan, ik one of their territories is in Georgia)

Using Kekistani troops in Georgia, the Mongols launch a front in the caucasus, attracting the Armenians to join them in a bid to reclaim Eastern Anatolia + Lands in Azerbaijan (and incorporating Armenia into the Mongol Empire), and conquers the Northern Caucasus region, Azerbaijan now stands alone and surrenders after Kekstantinople surrenders to Mongolia, giving them access to all of Iran.

Anyways the Mongols invade Iraq and Kuwait and sacks Bagdad again, and then annexes the nation, they now aim for Syria, Turkey and the former Russian lands
