*To begin with, and to be entirely frank, I have no idea if this "President Bittiaq" is simply projecting his wishes upon another or if he has no concept of what actually creates gratitude, but I see absolutely no reason why any individual within his nation would have any reason to be "grateful" or "compliant" when they betray the very motto they continue to drape over their nation.*

*I mean, really, an autocratic, neo-feudal slave state declaring "all men are created equal" is like Neo-Korea stating it has a commitment to human rights.*

*I hope whatever populace exists within this "Upper Tuchoim" can eventually break free from the rule of its current delusions and create a state that can actually lay claim to being deserving of any gratitude.*

There is little sense in being diplomatic with them, cuz theyll just designate us as some sort of enemy, who wants to "subvert" their population, ideological differences are far too great, plus, their government just sells their people to the elites!

Yeah, he'll be just another warlord, when this regime thankfully collapses... which is rather soon. And he will either get himself killed or have to run and get caught. He might use his skills and win the race for power, but he will have to control a nation much weaker, than it is now. Elther way, I feel, that he is screwed in the future." -[Overboss Liam Navarro](#)

It's freedom without happiness or happiness without freedom, and he is stealing their happiness in the name of freedom. How is that supposed to create a perfect country? Of course, happiness and money are always necessary.

If you leave no room for anger or sadness, then happiness is inevitable. You restrict joy in the name of freedom, and, erm... I don't like that. How could you disregard the wellbeing of your citizens to *that* degree? Yes, yes, I do not approve of you very much.

"I think I have more to say about his country than about him, but I still got something to say about the administrator of Huffmania, Hans Schneide. From a young age, he was radicalized by the Huffmanian technocratic ideology, and started to become sort of a big fan of surgeries. That's kinda a weird interest but given that was what he studied while in medical school, it seems he's really into it. I'm also disturbed by another hobby of his, and all I can say is that it's pretty horrific. That being said, I do agree with some of what he had done during his time as the administrator, such as his development of security forces and his implementation of economically progressive policies, but I disagree with his Globalism policies. In terms of what he stands for, I agree with some of it, like his opposition to monarchy and his support for technology, but I disagree with him on other things. Overall, he's a mixed bag for me."

- Ziyadat Allah Hasan, President of Libya

Yan Sooyoung's Mood: *Judging.*

"I believe that Hasan has the right goals in mind—a society without borders and without a strict governing force, a society which can thrive off its own culture and people. However, I worry that due to his strong-minded opinions, he may be unable to create a consensus amongst his people, causing divide which may be worse for the society he seeks to create."

I appreciate that Hasan wants to dismantle the current system in place, and replace it with a new one—he is bold in ways that leaders typically are not. The way Hasan plans to remove the influence that Western countries hold on Libya by removing their troops and not allowing their meddling in Libya's politics is also a noble cause. I worry, however, that Hasan may use too much force in his approach, and that may end up creating more violence than Hasan seeks to rid Libya of.

I think Hasan's upbringing shows that Hasan's ideals were influenced by his family and culture from a young age. Hasan's grandfather's success is a good example of how Hasan's values of strong work ethics and the benefits that come from that. Hasan may have been influenced by his family's collaboration with Italy, but he clearly recognizes that as a young adult that this is immoral. This makes Hasan a flexible leader that is able to change his beliefs as he experiences the world. Hasan's family is clearly a prominent factor in him being in politics. His family was relatively wealthy, so Hasan was able to travel the world at an early age. Hasan's family was pro-Gaddafi,

so Hasan has strong, anti-colonial ties, which are core political values. The role in the movie *Tripolitania* helped Hasan develop a strong fanbase, even at 18. His parents were both involved in the movie industry. This gave Hasan the platform to be an up-and-coming political icon within Libya.

I believe that Hasan had planned his ascent to power all along; he just never openly admitted it. He was smart and careful to downplay all of his political ambitions to avoid any controversy. As for the coup, the government's swift response to quash any violent resistance is unsurprising. Libya's modern history seems to be deeply rooted in political instability and civil conflict. Hasan is a very divisive figure in Libya. Some see him as a brave revolutionary while others see him as a cold-blooded tyrant. His critics have accused him of rigging elections, ruling with an iron fist, and censoring dissent. But he has also been praised for bringing stability and prosperity to Libya after years of chaos.

I think it's important to consider the historical context of Hasan's time in power. Libya was a country deeply divided by tribal loyalties and political rivalries, and it was facing a major economic crisis due to the drop in oil prices. Hasan navigated these challenges successfully and was able to bring stability to Libya. However, Hasan's leadership style was also authoritarian and he was not afraid to use force to crush dissent. This has led some to criticize him as a dictator. Overall, I think Hasan's legacy is mixed. Personally, I think Hasan is a very complex and contradictory figure. On one hand, he was able to achieve a lot of progress for Libya in terms of economic development and infrastructure, but on the other hand he was also responsible for many human rights abuses. So I don't think Hasan is a perfect leader, but I also don't think he's as bad as his critics say."

As I am the so-called Empress of International Fascism, one would assume that a time-traveling Communist that has been alive for thousands of years would have me deeply concerned. I am not. For the unnatural gifts the universe has given her, she is still flesh and blood- and she lost in an all-too-typical Communist power struggle, bound to a prison reality for time immemorial. In the post-scarcity dimension she hails from, I cannot imagine that it would be particularly challenging to be in charge of a government who ranks central economic planning among its main concerns. I imagine there was quite a learning and adjustment period coming out of time-jail."

"My first impression is of course negative, she's openly a fascist. Not only that, but nicknames like 'the blind dictator, femme fatale, and Santa Muerte', how narcissistic must you be to take names like that? It sounds like what they'd call a supervillain in an American movie featuring every single cliché possible. When I was working in the United States I was a villain *a lot*, they love to cast Arabs as evil over there, it's their thing, and I never was given such a cheesy title, thank God. That being said, if I was born in some test tube-like thing like the order uses, I would probably have lots of issues too. It says her brother went insane and she had to depose him, he probably went insane from living in such a tyrannical society, even as a leader, that's not good for the soul. Will she go insane, too? Probably. I hope for the sake of her people she doesn't."

Oh, and he fixed the economy of Lybia, which is also awesomized! But that torture thingy is something, we just can't get over! Just can't!

With one hand, he does good things, gives people their deserved rights and helps them with healthcare and welfare. With other, he tortures and imprisons dissenters. I commend his positive motions, but his flaws are too large. We just can't support the regime, that tortures people and stomps on the freedom of speech. He is the case of someone extremely controversial. He deserves both my respect for what he did to his country and condemnation for the crimes he had committed. So far, I believe, that Ziyadat is a misguided man, but better than many dictators, who don't even care about their country, only about power. Hauptquartier der Militärregierung  
Louvre-Palast, Straße von Rivoli, Stadtbezirk Louvre  
FREIE-STADT-PARIS

Melding<sup>[1]</sup> on His Caserly<sup>[2]</sup> Majesty, Greatcaser<sup>[3]</sup>,  
Drighten<sup>[4]</sup>, "Charles von Roland"

If I may be soothfast<sup>[5]</sup>, I know not whether to

laugh at or be angry with this man. On one hand, his biography reads like a novel so much that I feel a bayonet is stabbing deeper and deeper into my skull as I take these words as they are written. On the other, I feel as if my pride as an officer is being trampled upon as I read on this man's unwise deeds in the slaughterfield<sup>[6]</sup> taken to be byspels<sup>[7]</sup> of moudiness<sup>[8]</sup> for his soldiers and burghers<sup>[9]</sup> to follow.

Born in the purple, this man had his life set from the start, if only he had done nothing but sit and smile for the biltboxes<sup>[10]</sup>. However, either he or his father—Caser<sup>[11]</sup> Fernando, bearing a *Spanish* name, notwithstanding being either a *Swede* or an *Engle*<sup>[12]</sup>—chose to besooth<sup>[13]</sup> him as a meaning<sup>[14]</sup> so he may go to school “*without lovelingism*<sup>[15]</sup> *and overmety*<sup>[16]</sup> *pampering and care*”. Do princes and princesses in this world not have teachers hired by the caserhouse<sup>[17]</sup>? And for this, he was pestered<sup>[18]</sup> and shunned by his fellow children—I could not help but laugh at the drama of it all as I wrote this.

Shortly after bytreading<sup>[19]</sup> the military, this “*Imperium*” boded crig<sup>[20]</sup> upon Russland<sup>[21]</sup> after she overfell<sup>[22]</sup> some worthless breakaway state in Easteuropa<sup>[23]</sup>. Now, I may have fought the Russers<sup>[24]</sup> myself, but I know nothing of the geopolitic of this time or world, so I cannot say anything on the soundness of this beslotting<sup>[25]</sup>. What I could say, however, is that his father was either as mindless as his son or was plotting to have him killed, sending Charles *straight to the frontlines*. I know not what rank he held at first, but seeing as it was weighty<sup>[26]</sup> enough for him to have led a “*staur*<sup>[27]</sup> *craft*<sup>[28]</sup> *of the forehode*<sup>[29]</sup>”, he, *by any and all means*, should not have been fighting *in the thick of the stride*<sup>[30]</sup>, besunderly<sup>[31]</sup> in storming Sanct Petersburg, one of, *if not the most*, strategish<sup>[32]</sup> steads<sup>[33]</sup> for the Russish<sup>[34]</sup> leadership. It comes as a shock to no one that he was heavily wounded, but it comes as a shock to myself that he has healed from each and every one of these wounds without so much as a narr<sup>[35]</sup>, given how this seems to be something that happens daily for the earm<sup>[36]</sup> Prince.

He later fought in this so-called “*Koenigsburg*”—I onnim<sup>[37]</sup> this to be a misspelling of Königsberg—and then Warsaw, Narva, Helsing<sup>[38]</sup>, Riga, Wilna<sup>[39]</sup>, and lastly, Reval<sup>[40]</sup>. In every slaught<sup>[41]</sup>, he was shot, bruised, blown up, or burnt one way or another, but somehow—and *unluckily for him*—lived through what I could only bewrite<sup>[42]</sup> as an orfaring<sup>[43]</sup>. I would not wish upon my worst foe. Or should I say *luckily* for him? Since it seems that Charles here is asking at every turn for the Russers to kill him; for byspel, in the Slaughter of Warsaw, he seemed to fancy himself a new Napoleon and took nothing but a sabre and pistol while leading at the forefront of an ongripe<sup>[44]</sup> on the Russish lines—if I were a Russish thane<sup>[45]</sup>, I would have befealed<sup>[46]</sup> my men to fire first and foremost at the mad officer heading straight toward us with a sword. He seems to not understand that commanders are always on the fiend's<sup>[47]</sup> crosshairs, and that if a general were to fall in any stride, his men would be running around like headless chickens

and the whole slaughter would have been made pointless. “Undying<sup>[48]</sup> Soldier” indeed he may be, but even if a thin line sunders<sup>[49]</sup> moudiness and thoughtlessness, he is fastly<sup>[50]</sup> within the latter.

As Caser, his rule seems to be unnoteworthy, though he seems to style himself as a “man of the folk<sup>[51]</sup>”. After bewedding<sup>[52]</sup> this “Grace” woman, whom I will not speak further about, Caser Charles began a cleansing of his regering<sup>[53]</sup> and bureaucracy, akin to John the Fearsome<sup>[54]</sup> and his own cleansing of the Russish aristocracy. I would like to point out that his crowning<sup>[54]</sup> happened forthwith<sup>[55]</sup> on the day of his father’s death and thus the start of Charles’s own rule, so I cannot help but think that, like his father plotting Charles’s death in crig, he in turn plotted his father’s death—only this time, *Charles* had his way. Though, I must say, I have neither the time nor the gethuld<sup>[56]</sup> nor even the smallest sort of love for politicking, so, in a way, he is a better statesman than I could ever hope to be—*not that it makes him much of a better officer or husband*. However, notwithstanding how hard one fands<sup>[57]</sup> to do so, it is unmaily<sup>[58]</sup> to ever fully root out the rot<sup>[59]</sup> in any system, unless this man could somehow orset<sup>[60]</sup> menish<sup>[61]</sup> beings with something such as bees, whose whole dull and meaningless lives are besundered<sup>[62]</sup> for the hive and nothing else.

To keep things short: Charles is an odd fellow. I have a lot of aught<sup>[63]</sup> for Casers, but not so much for him. As an officer, he gives his deeds little thought. As a ruler, he is as ruthless as he is naïve. As a man, he is a narcissistish<sup>[64]</sup> egoist who foregives<sup>[65]</sup> to be a selfless wellwiller<sup>[66]</sup>. Shame that Lady Luck, or likely that scoundrel we call “God”, blessed *only* him and *no one else* in all of Swedeland-England<sup>[67]</sup>.

That is all.

he'll be as pretentious as Europeans get. We have very differing views on Russia and socialism, but I suppose no German is going to not hate the Russians, even after their whole so-called 'de-Nazification'. Despite all this, I have to say it does give me a bit of a sick sense of satisfaction to see someone, even if they're another European, oppress the French. It says that Germany did end up losing their lands in France, but I wouldn't have minded a world where count Bromberg got to stay kicking around in Paris for a little while longer. His military achievements despite his eventual loss are for sure to be admired, so is his development of the city he occupied. His daughter must be a proud woman. The only other criticism of the count I can levy is that this whole 'God has to earn my worshipping of Him' is giving Reddit atheism decades before social media even came to be. A little pathetic. If you're an atheist, just say that. Overall, not a fan, but by European nobility standards, the count is one of the better ones."

Nemo's Status: *Eating breakfast, scrambled eggs and rice*

"How ironic that he supports (and is supported by) governments, from what I have read about for most of them, who are known to deny and/or persecute its citizens their rights due to their sexual orientations and gender identities. One might expect for him to stand up for the rights of those people as he did his own, but it seems he is quite mum. Either the Libyan president is aware of this fact but is willing to shut his eyes, ears, and mouth up to those maltreatments just as long as those governments support his regime in their collective hatred to that other alliance of countries, or he is simple-minded. Either way, he is a spineless hypocrite."

Mixing elements of Pahlavi Iran and North Korea together; like both South Korea and Japan, the Imperial State does not have laws that protect nor recognize LGBTQ+.
