Monkey 2174 made a deal with the devil to learn how to number properly. He then died five minutes later due to fine print he was too lazy to read. Always read the fine print, monkeys.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin.  
Shockingly, we \*do\* use NS stats, with the exception of lifespan.

Monkey 2156 deemed the previous three monkeys as impostors due to the lack of monkey in their names.  
They teamed up before their own deaths to murder him.
