Factbook

Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

PMT/Early FT - Decopunk. Zitravgrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. A deal that works, but maybe not in the long run. | [My NS-Related Art](#) | Hehe bad meme as flag

In true Rynese fashion, i've been blasting Metallica ever since i got home from work some 20 minutes or a bit more ago.

Some of the excerpts of blasting music:

Master of Puppets
Ride the Lightning
Fight Fire with Fire
Murder One
Spit out the Bone
and
Fade to Black.

That's actually pretty close to my top Metallica song list, though FFwF is in 1st place.
