Fatatatutti. Unfortunately, when taking it out of the package, he lost track of whether it was upside-down or rightside-up. He spent so much time turning it over and over trying to decide which was which that he went past the best-before date and when he finally ate it, he died of food poisoning.

The Karevkan Soviet Union is an alternate history Russia whose history is mostly the same (although under a different name) until the Karevkan Revolution in 1917. More progressive in its policies than the IRL Soviet Union it has a market socialist economy and more civil rights and freedoms.
