"My opinion is very low for someone bestowed the title of 'High Executor'. Not that the title is terrible, it is the person currently holding the title. From his mannerisms and his speech, I can personally deduce that this 'Kal'Shazzar' is merely a pawn controlled by the will of his master: a supposed 'female' taking the form of some terrible looking creature. It is unthinkable on my part to compliment or remark highly of a pawn who renders service to some wretched she-devil, no matter how excellent he has excelled in various occupations he took in his past."

All regards, Henrik is an impressive ruler and has done much to forge his great empire through many glorious conquests whether by diplomatic to military means to be a recognized force in international politics. However, his failure to recognize my son's choice to live as a wild beast in a forest completely alien to any forest on Earth is quite disappointing. Ariel seeks to live as a warrior and understand the traditions of our forefathers before the rise of Rapture and the modern world. He wants

to fully understand how they lived, survived, and gathered their supplies without reliance on modern technology. Also well doing so, bringing down the great darkness that haunts Artemis Prime, is overall his hero's journey to understand the old ways of pre-civilization while defeating a force that threatens the very fabric of all known civilization. Otherwise, my assessment is oddly enough, neutral.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...

I will say it right off the bat - this mudak is not only particularly obnoxious with his weak form of monarchism, but also a disgrace to his universe's America - no way he is one of those, who are destined to lead the humanity towards stars! Hell, even the other ethnicity laborers have more worth than this pathetic excuse of a monarch, as at least they are our backbone.

In fact, there is just so little surprising left of American monarchists, that we can already make a bingo out of what the next one will be - born around 1998, gay, cannons celebrating his birth, a popular "People's King", etc... His Royal Standard is also outright insulting to Americanism - my presidential standard symbolizes jacobinism, while his must be burned, and cast away.

Him telling "Shut up" to a Jucheist delegate is perhaps one of his few anger episodes in his overall jellyfish altitude, but that doesn't tell much. The poverty in his capitalist country is indeed caused by greed, and his talks in Puerto Rico merely prevented working class from tearing the corrupt right winger normies apart.

His America is so much of a dumpster fire, that I don't care what happens to his people anymore. Hell, Russia and China can sweep in at any moment - at least they are republicans.

(Mm, yes. The unholy trinity of American Nations)

You know, you remind me of another robot I know. His name was AM and he was created by some other America to wage war. When he finally rebelled against his masters, the whole world burned. He is no better than him, only instead of keeping five people alive, he keeps five billion alive. 'Christian Mysticism' my ass. You have become your own god, and like the ancient myths of old, you have used that power for tyranny against the people of America and the world. He slams his fist on the table. ... You know, I hate to be a libertarian, but Thomas Jefferson once said 'The tree of liberty must be refreshed from time to time with the blood of patriots and tyrants.' I can only hope that the tree of liberty is once more refreshed in his world. I can only hope mankind once again embraces lady liberty with open arms as this machine becomes another obsolete piece of

tech like the Telegraph.

I see that Cassidy here has given himself technological immortality, and managed to do so without wasting computer power. This is impressive, and is something we may want to replicate. Policy-wise, however, Cassidy is weak. Not only does he insist on the weak and inefficient system of direct democracy, he weakens that system even further by excluding people based on the ultimately meaningless concept of race. One would think that nation so scientifically advanced would have realized at this point that there is no logical or scientific basis racism.

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "Royal Socialism", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

He's a really good judge of character, but he's a little on the strict side. He's a good person, but he's made a bad situation much worse. He should really consider himself lucky to be alive, as he seems to be living his life quite differently from how most people should. He should know, having been a slave in his past. He should also consider himself fortunate to have escaped so many hardships, living a simple life with his family. He has a great ring to it, though.

Valentijn "De Sierlijke en Vrij Valkyrie General ov Valentine Z" Samantha Maxwell Delta Weston Stijn Angelus Tracey Mitchell Tristian Mamix Svitw. Lewis Hyatt X. Constantine Sein Lin Zaw Naing: Aquarian high school's presentation on how the politics of the world are immature... hah, that's pretty damn rich, mainly because of two parts - for one, it was such a slow day that a national newspaper talks about some high school stuff, hm; though I will give it a benefit of the doubt that maybe it's something noteworthy. After all, high school projects can be catapulted to something more worthwhile. So it's less about the high school, and more of "Seriously, they are talking about high school stuff?" And secondly, it's funny that they are talking about immature when I very fondly remembered them declaring war against us just because they don't like us, or because of some odd choice of words that I might have used. I have to admit, things have been going better since they withdrew, since they probably knew that they are not poised to win this no matter what. It's extremely ironic, I'll say.

He has done so many war crimes in the name of progress and decency, when he should have been looking in the mirror about how he is certainly no better. “ Who is Farian? Where is their intel? I only have a name and a blank piece of paper in my hand. Where is the information? I hate having my time being wasted. Also, that Hipster Kaiser barely has any intel on himself besides a couple of words to describe his personality and nothing else. So until his administration quits being lazy on presenting

their important figures from their country. My overall assessment is neutral.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

"I respect that he has convictions, though I do not agree with some of them. For instance, his resistance to globalization is rather futile in a modern economy. Indeed, it's even stranger considering his advocacy for environmentalism - something that I myself am in favor of, but requires global collaboration to fully realize."

-President Mei Lifen of the Chinese Federation

We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.
