Why are we so obsessed with guns? Anyways, as per the 2015 amendment to the 1993 General Firearms Regulations Act, a semi-automatic rifle is not banned as long as it is not carried in urban areas, is not concealed when carried, and the buyer has all necessary licences, having passed all background checks.

Usually a fine, the public figure usually gets imprisoned or publicly humiliated. However, cults of personality (on regulated scales) are permitted for royals and historical figures.

You'd probably be kidnapped at night, and then ~~brainwashed into a TRUE PATRIOT~~ you would be fined harshly, and imprisoned. The gun would be seized from you. Also, if you never had a gun permit, you would face an even harsher sentence.

Depends upon the definition and the acts which accompany the wrong thoughts. However, feminists, Marxists, tribal separatists, Scientologists, Mormons, Jehovah's Witnesses, and Islamists are particularly punished and harshly for any kind of political or religious activity. Protestants, liberals, environmentalists, homosexuals, Jews, freemasons, and democratic centrist/rightists as well as republicans are tolerated more, but still kept on a somewhat short leash. Anti-Catholic literature and propaganda are viewed in a rather stern light.

All schools are controlled by either the Crown or the Catholic Church, so academics have to walk a political and religious tightrope. The State is especially severe in its sentence of anyone caught advocating or agitating for anything Islamic in nature. The usual penalty is death by firing squad or else exile for life, with all property in both cases forfeit to the State.

Your penalty, if any, for abortion?

life, and/or cases under which the foetus is, without significant doubt, expected to die in infancy (local governments determine maximum age to allow this), but this is not frequently used, as abuse of this to allow abortions to healthy foetuses caused the Supreme Court to temporarily suspend this exception since 2019. Outside these exceptions, abortion is illegal. For an abortion before 12 weeks of pregnancy, a 5,000KE to 15,000KE fine is recommended for first-time offenders, but fines are given at the discretion of courts. On second offences and beyond, fines cannot be higher than 50,000KE, but the judge can decide the exact fine, and is recommended to give community service to the offending parent(s) and doctor(s). An abortion between 12 and 24 weeks of pregnancy will result in fines ranging from 15,000KE to 25,000KE, and up to 75,000KE on second offences and beyond, with community service recommended. Again, at the discretion of courts. Past 24 weeks, fines range from 50,000KE to 100,000KE on first offence, together with a recommended 2-week prison sentence (case dependent), and up to 250,000KE on second offences and beyond, with community service and a 2- to 6-week prison sentence (case dependent) recommended.

You would probably be imprisoned and the people who saw the documents arrested and brainwashed that it never happened and it was a dream. The person who leaked it would be subject to a very large fine and would be in prison for anything from 8 to 40 years, depending on severity. Multiple time offenders can have sentences up to life imprisonment or death, depends on how many times they did it.

monkeys there were. If we're going with the worst case scenario then that would be a bonobo killing 10 Leaders (the maximum allowed in 1 room at a time). That would be 500 years in prison for assassination and (50x10) 15 years for 3rd degree slavery (which is the ownership of human relatives).
Best case scenario on the other hand would be a single lemur being released and then promptly captured before it did anything, you would be fined only 2,000 Keirm (or 200 USD)
