There is a bay with a port city in some idyll like the Med. I associate that with interchange of cultures, tales and ideas. So, it's an interesting place offering temptations and escapes amongst other things. There is a small mountain or is it a volcano? From either the summit would offer an overview over a greater area which gives you the ability to see beyond your normal perspective and allow you the vantage point to see things well in advance of their arrival. If it is a volcano there is the added piquancy of keeping you on edge when it rumbles, fertile soils where things grow and develop but also the lurking presence of danger if it decides to erupt.
