It seems to me a parliamentary constitutional monarchy, that is, a crowned democracy.

Merulla is the land of the brave, the fair and of the

heroes.

A great kingdom consisting of fifteen federative like states, with a decentralized power, where the real king is the Merullean people.

Come and discover Merulla, where the waves are born.

Constitutional presidential federal republic with significant corruption and democratic deficits

But "a post apocalyptic narco monarchist state created by drug cartels" is probably an accurate description of a few states.

Central American presidential social democratic republic.

Just think of a Third Mexican Empire installed by the cartels in the wake of a major catastrophe that has forced the collapse of most national governments and the global economy.
