I think 99% of anime is cringe and dumb but I'm not about to bash people for liking it. That's their choice.

That is incredible, and I love it. XD

Thanks! It took a bit of Photoshop manipulation for the flag and for Valentijn's clothes! ♥ All about editing the texture files.

I'm still surprised by how well green and pink go together on your flag.

I tried many, many variants (that could be a trope in itself - One with many aesthetics, and indecisiveness!) but at the end of the day, regardless of actual flag-like flag, or avatars, this flag will always scream Val Z the most. ^^

Now that I think about it, I guess the premise of "people I don't know online" is inaccurate. We do know them... their online persona, at least. I mean we do know that many cases, online personas and the real dude behind differs wildly.

To be honest, I saw the OOC but I wasn't sure if you actually would prefer it over your nation name. I'll take care from here on out.

I've been using it on my main since before 2017. It was a lot more uncommon back then. I only remember that 2 or 3 people other than myself used them.

Yes, Sims 4, to be precise! I know it's the weakest in terms of gameplay, but at this point, I used the game solely for the graphics.

As the time of this writing, I have created 22 Sims for The Sixty (along with characters in other puppets), though some has no Sims counterparts because it doesn't apply to them, or am keeping their face a mystery.

People get way too worked up about anime regardless if they hate it or like it. I don't like anime and hate that it seems to be everywhere in certain internet communities I frequent but I'm also not going to get worked up over people liking it.
