Protestantism

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

Authoritarian Italian based nations are cliché, Colonial Imperialist nations are cliché, Welfare Monarchies are cliché, but how about all three in one! Still Cliché? Well that's what this nation is.

From now on please refer to this nation as Aostania because I have changed the lore to a name that is more fitting and less convoluted
