Since Ayverin is blatantly skipping Nacrad for no reason...

Nacrad is a regional power within Southeast Asia due to their involvement with SEATO, and maintains good relations with the EU, in spite of tensions across the Afro-Eurasian continent.

*Leskyan economics describe communes which cannot at the very least provide sufficient amount of calories a day for its residents to be exploitable & may be abolished. Leskya's lack of monopoly on violence allows fellow communes to band together and fight disruptive and violent communes, basically making senseless violence not worth it in the long run and promotes cooperation instead from what I understand anyways.*

The Elbonnians absolutely fucked the invading Eruseans during the Lighthouse War (to a certain extent) by using highway runways and spreading out their air forces. These madlads actually managed to make a guerilla resistance based off of planes work solely by using grandpa's shed as a place to hide the ol' F-15.

Oh, also, the Eruseans recreated Hoffnung in the city of Ptolemaeus in some sort of revenge. Good thing the Elbonnians didn't respond to that like the

Belkans did.
