Don't Take the Girl - Tim McGraw.

*Take the very breath you gave me,
Take the heart from my chest.
I'll gladly take her place if you'll let me,
Make this my last request.
Take me out of this world,
God, please... don't take the girl.*

Days like dominoes, all in a line

Emerge transformed in a million years, from days like these

Stabbing Westward - *Slipping Away*

American industrial rock. From the album **Wither Blister Burn + Peel**, released in 1995 by Columbia.

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
