There's a feature called 'the ignore list', if someone is annoying you with their posts, just add them to it.

Some people might argue and go 'Oh well you shouldn't ignore people just because they're annoying', I say 'Fuck that'. I'm not required to have to see the posts from users who are annoying/tired and shitty gimmickposters, so I don't see them and neither are y'all.

Really makes me ponder why I bother ever posting on this site

It's like imagine going to a grocery store with the goal of buying some bananas, but there's been no quality control so almost every banana is rotten

And every day you come back, it's the same. Sometimes you get a nice bunch, but is it worth it to keep going to the same grocery store?

Maybe this site just has too many younger people on it for me, it's boring to try to interact with other people just to have some fool spew out some garbage post right after. I guess I also just shouldn't expect literally anything from F7, that is my fault for expecting some standard in the place for "shit posting"

I presume this is about the response you got in "How does YN soldiers feel about fighting AN soldiers" right? Like, I saw what you put out there, like real good stuff, and then you got this crap:

DA ORK wrote:

Yeah, this mate's shenanigans are getting quite tiring. Honestly not quite worth trying to have high expectations around here.

well yeah but still
happens all the time
like yeah I get it scary OP monsters but like you don't have to write getting slaughtered or whatever just don't give me "rahhh me fight you" or whatever

and you see it happen with other people too like they put all this time into something just to get hit with the same crap

I don't like gossiping about people....**HOWEVER.**

Having a single low-effort gimmick that you don't even fully commit to and just annoy people in F7 with is...*really* annoying. I'm just going to start ignoring him.

m'man, let me give you the truth here: it's always been like this. you put **one** paragraph of effort on the guy above you, and the next microsecond you get replied to with some... less than optimal things, the list of which is *very long*, ranging from the most tame (generic and boilerplate "X cool" with no elaboration, for example), all the way to the most egregious things you'll ever find (ranging from dismissing your factbooks entirely and talking about your stats - even when you SPECIFY they're not applicable to your project -, all the way to DISMISSING the rest of your factbook, just to focus on the sidebar, or something similar).

I know I wish this cliché was no longer applicable, but alas... it's still VERY applicable.

That or the same copy/paste response of "[x] is scary because [y]" given they don't even take the time or the effort to browse through the rest of the factbooks/dispatches.

And then it's the exact same reply every time too.

For me? "Oh, chemical weapons are scary" or "they have nukes" or "they aren't afraid to use chemical weapons" like bro... Every MT nation and their mother has nukes and other WMDs in **SOME** regard. Literally anything else could be more terrifying (beyond sheer numbers)...

I see a lot of people, probably young people, who think that totalitarianism, warcrimes, and just war in general is cool. It's really not cool, and joking about warcrimes is a pretty shitty thing to do. Totalitarianism is an ideology which has different names, but all of them mean the same thing. I don't fucking care if your Stalinist, or if you are a Fascist, these ideologies are nothing but mockworthy ideologies which do not deserve any sympathy at all.

Another thing is fucking low effort shitposts and one-liners. I see so many fucking 2 week old nations just polluting F7 with just fucking one-liners with low effort shitposts. Don't get me wrong, sometimes I do shitposts when I want to mock something, but at least I have at least 3-4 lines after that. It's also really discouraging when I go on a thread, send an effort post, and then a summie is under me and says the default response, "KomOoNiSt dTY sTaTe" without reading any of my factbooks, and without even glancing at my nation. It's just so discouraging and makes me want to not develop my nation's factbooks.

Oh yeah. I think the distinction should be made between an interest in hardware and the fetishization of war, unfortunate as it may be that they are often intertwined.

Okay yea I hate those too. At least I try. But at the same time, does everything *have* to be politically charged or is there an opinion that you have that, like, isn't politically charged in any way, shape or form? It sorta kills the purpose of a comment if it boils down to "I think this is bad, because reasons, BUT ALSO BECAUSE [political tangent here] AND SO IT'S BAD" which makes it no better than whatever you're going on about.
