2289 A.D.

In the early 21st century Siberia was struck by a massive asteroid that brought untold devastation and the collapse of almost every government. An alien virus, capable of mutating its victims, was brought to Earth as well. Eastern Europe, Siberia, China and countless other regions fell to the mutant horde. Europe became a medieval landscape ruled by feudal lords. The Middle East unified into a single Sultanate over time and entered a golden age wherein they have learned to co-exist with mutants. The Americas, which have lost contact with the old world, have turned into a Mad Max hellhole.

The time has come to make yet another nation. You'll probably recognize me.

Colorful buildings in the town, and beautiful mountains. Somewhat reminds me of various places in Europe... I'm guessing they're supposed to be from somewhere in Europe?

Was meant to show some of Hell's ancient ruins, but you're actually not wrong: basically everywhere that isn't here is some level of screwed. Earth's very screwed. We're trying to fix that.
