No punishment for selling uranium itself unless if sold outside of Burgerjaklandia or to foreign parties- in such a case, the head members of the organization will be detained by black vans in the middle of the night and publicly shamed for treason. I also suppose failing to comply with basic business regulations could also land fines or a forceful seizure of assets, if such enforcement isn't possible then at the very least the state would lower its publicly-viewable social credit score.

Defecating in public.

If it involves photos then: production, distribution and possession of
illegally obtained pornographic material. Which is a Union-level
offense. Probably 3-5 years in a Correctional labour facility depending
on the prosecutor. If not, then probably a 6 month labour term for
hooliganism.

Theft of state property.

Not really a crime, but you should probably hope the CP (Civilna Prostrasija, our term for 'civil protection,' not **that** other thing) officer that has the misfortune of seeing that can restrain himself from firing a bullet from his service revolver into your head.
