Monkey 1195 was sacrificed to the monkey gods by being boiled alive and later having his soul salted to banish it to the afterlife... After killing monkey 1194 and later being found out as the murderer in a certain killing game.

Monkey 1185 was assassinated while speaking out against parental abuse by an as of yet unidentified tiger like individual. Police are searching for the assassin, but little evidence has turned up so far.

Monkey 1184 used to work as a "bot" for an undisclosed foreign MMO from within a sweatshop hidden somewhere in Hong Kong. The monkey was actually a "labor export" from North Korean, and when a local girl fell in love with him, her parents ran a background check to determine if he was suitable enough for marriage. Once it was discovered that the monkey had no official identity, aside from a negative social credit score, the CPC imprisoned him and slated him for execution on grounds of being a foreign spy and a gaming addict.

Things went horribly, horribly wrong, however. They put the monkey into an electric chair, flipped the switch, and on a live broadcast to the entire country, the monkey fried... and then respawned for NG+ with a serious bonus to all his stats, as well as having unlocked the golden RPG launcher with infinite ammo. It took multiple DLC bossfights sponsored by Tencent to finally kill the monkey again, for good, after debuffing him so hard that he lost his NG+ respawn privileges.

Rumor has it, however, that the monkey's girlfriend is a hacker, and intends to hard-code the monkey's genetics into the newest VRMMO once Tencent buys it out from the West.

Be silent. Be not still.

Execution method was: Getting spiked by a bull. Monkey 1179 also died in the process, because he did not let the red flag fall and the bull did not like that.
