PMT/Early FT - Decopunk. Zitravgrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. A deal that works, but maybe not in the long run. | [My NS-Related Art](#) | Hehe bad meme as flag

This nation does not represent my personal views or preferences.

On the flag there is a red circle behind the German eagle.

Basically the Axis if WW2 was a stalemate. Currently late 40's/early 50's. In a bit of a cold war except that no one has nuked anyone yet and no one wants to be the arse that does it first and give it away. Now featuring heavy doses of propaganda and military parades.

I dun use no NS stats, ya hear? I'm a bit more realistic than mandatory-helmet-wearing.
