The Cure - *The Promise*

“ CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Hangedub-Klang Klang

Out of bands to go through with not many albums. Well, not completely, but now instead of tackling ones with less than 20 songs, now I'm going to 20 to 30's.

Feeling nice to be clearing out a big chunk of these backed up post-rock bands, though.

Edit: Wikipedia says Experimental Rock. Eh, whatever.

Hangedub-Alarm

Definitely interesting.

"Hangedup are an experimental rock group from Montreal, Canada. They are a two-piece band, featuring Genevieve Heistek (Sackville, The Mile End Ladies String Auxiliary, Set Fire to Flames, Land of Kush) on Viola and Eric Craven (Shortwave, Sackville, formerly Thee Silver Mt. Zion Memorial Orchestra & Tra-La-La Band) on drums and percussion. Their sound can be described as viola put into loops, with lots of percussion (sometimes using selfmade instruments)."
