Ooh, here's a good one

Nations that utilize both art/anime/cartoons and real images. As in, the character is an anime person while the city is a real image of New York, along with similar scenarios.

This is not really a bad cliché, but it's funny because it makes me think the universe is like Who Framed Roger Rabbit with Cartoons and Humans living in the same world.

Well...I was planning to make Kehrernesia utilize said cliché (which doesn't really seem to be that common)...with characters having both realistic and cartoony/simplistic variants.

Honestly I feel like sometimes you have to do that, though. Like, if your setting's niche then you've got limited images to choose from. Beggars can't be choosers, you know?

Sometimes it's a design choice, which will be the case for Kehrernesia. Other times, it's due to limitations, as KG said.

I believe Greater Victoria also called out someone on having a wrong impression of the Phoenix due to how he is depicted in an animesque style.

Well...I was planning to make Kehremesia utilize said cliché (which doesn't really seem to be that common)...with characters having both realistic and cartoony/simplistic variants.

The art could also be official portraits of leaders, so it might not be a *Who Framed Roger Rabbit*-type thing.

Re: Leader ages

I try to be somewhat realistic when it comes to my leader's ages. Like on Gandoor, the current leader is supposed to be the youngest Prime Minister that they've ever had, but she's still 41 years old. Still relatively young, but not really an uncommon thing for someone in their early 40s to become a country's leader.

Yeah. For monarchs, you can have a teen/young adult leader and have it be realistic if they were first in line, even in the modern world. But I do not think most people would elect a 25-year-old as head of state.

Nah, then you've got museum pieces to work with.

I'm in like the 1300s BCE over here, ain't nothing to work with that far back. Don't tell anyone, but the Scythian knife I've got in my war factbook is from like the 600s BCE.

Hot world leaders outnumber normal-looking, homely or ugly ones. I can kinda understand this, RPing and escapism, idealization is expected. I've been thinking about this because several people have noted how old Montse was hotter. So much that I may even try to re-design her...and install an average-looking old dude in a puppet of mine.

Also, sexy people can be good or evil, it doesn't matter much. HOWEVER, ugly leaders are almost always evil without fail.

New Dunmore wrote:

I've thought of it too as somebody who is guilty of it. I'd like everything to be illustrated however there's only so much that Google Images can do. Sometimes things get too specific and it's hard to look for illustrations.

That is a fair point.

I wanted my characters to feel somewhat realistic, and I did not want to make them look like supermodels or anything. Heck, they don't even look royal!! Except maybe Wilhelm.

Kattenby?
Kattenby.

On the topic of the trope, this was actually the most difficult part of finding Ari's picture; pretty much everything I found was far too obviously sexualized. I think her current picture is a *little* over the top, but it's passable.

New Dunmore wrote:
