everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there

Eh, after that mellow show I watched last night, I'm suddenly not in the mood to go through this metal with vocals I need to get myself used to...

Sooo back to ignoring most of my metal.

And the last Gojira album won't freaking play, so there goes that idea.
