/reserved DEFINITION:

To reserve a post as to prevent being ninja'd. This is especially useful for having posts that may take effort or a good portion of time to make, as there is a greater chance of such things being ninja'd than a slash and a word. Only practical in some threads compared to others. The idea is to put /reserved first and edit it once you have a proper answer. As such, you are not ninja'd. BN will do you as long as you eventually edit your /reserved into a proper post.
