Roller Coaster was great. Backpack was good, but then Lil Wayne...

Meh...

Overall, this was actually pretty good. Not my favorite *by any means*, but it's tolerable. If he sticks with this (and stops acting like an idiot), I'll stop being a hater. ☐

He's SUPPOSEDLY retired, but I don't know if he meant that as "Going on hiatus", or actually as being retired...

Honestly, if I made the kind of money he's probably made already, I'd probably retire....

To escape the rabid fangirls.

No really, I'd just be set for life with what he's made and might as well make a different use out of the rest of my life.

*Everybody*, even his manager, says he's just taking a break for a year.

Honestly if I were in his position, I'd be doing that 'job' (for lack of a better term) for the rest of my life. That's like my dream job, to be a musician at that level.

Lanterna-Luminous

Listening to some of my favorite Lanterna songs from the one album I've listened to while winding down for bed. Very chill post-rock. Probably the most 'chill' post-rock album I've known.

I consider mellow to be different then chill. This feels like something you relax to while staring off your balcony in Florida (Except I think Florida is overrated), or cruising in your Tesla Model S (Hah, I wish), while mellow can be for all sorts of different moods.

Like sleeping.
