metamorphosis pt 2, from "the ram who fled the flock". there doesn't seem to be a listing for who the artist is, which is odd. at any rate, space piano, which i'm guessing, was done by one of the musicians on f.a.
(unless its BY "the ram who fled the flock", from "demos")

This is pretty sweet actually. Fans of Opeth or Porcupine Tree should check it out. It's got the singer from Opeth and the singer from Porcupine Tree on it.

The language of *Draugaborg* is *Draugskur*. The demonym is *Draugaborgskúr*(male) or *Draugaborgskö* (female), both plural and singular. The adjective is *Draugaborgar*. *Draugskur* is a constructed and artistic language created by me, and is based mainly on Icelandic and Russian. Please note that its systems and grammar may be modified, so certain posts will be rendered void in retrospect.
