It seems that they're engaged in an initiative to prevent the further promulgation of terrorism in and around their territory.

Their version of the Second World War ended in communist victory in Asia, when it united to completely annihilate Japan. The US is fascist now and Europe is under Soviet control

Sith State in Southern Africa, that controls Macau, East Timor, New Britain, Goa, Cabinda and Kaliningrad. Recognised global power with highly advanced technology, military force and magic to show for it.

Not Fascist officially, but basically think Hydra and Operation Paperclip. Alt-Right ideas are definitely more mainstream in the U.S and the Nazis are seen in a better light.

They have a very detailed amount of photos that depict their country, and their name is Sith for 'Miracle'. They have also colonized Madagascar.

Suicide is a capital offense.

It is the year 995 AH (2927 CE). As it prepares to greet the promised millennium after its founding, the National Socialist regime edges towards collapse. Besieged on all ends by enemies in and out, the Reich's very existence is called into question.

They managed to mix 3rd Reich into 40k lore (or was it the other way around?)

Also, the fact they think Hitler is a Blond, Blue-Eyed, Tall man is silly, yet interesting.

they're a post apocalyptic Arab state that apparently exists in the same universe as 1984. They have economy beyond trade and small businesses and their is large reformist sect within Islam.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

The title of their national anthem is in German, however is sung in English. I expected something more along the lines of 'Solidarity Forever'.

Their flag is divided into three sections to illustrate the divide between the three factions that make up the nation's current government. The workers and technocrats represented by the blade and the gear, the nationalists represented by the rifle and hoe, and the paramilitary group known as the Brotherhood represented by the Kazakh-esque sun and eagle.

It's also strange how the flag is complicated but still manages to look coherent.

There are many political factions in their nations. These include:

Nationalists - They want to ensure the internal and external security of their nation

Technocrats - They want scientific advancement to be the main priority over everything else

Brotherhood - They are the most radical groups. They tend to interfere in the administration, but are fanatically loyal to the president

Syndicalists - They practice socialism on a small scale and are their loyalty to the president is sometimes questioned.
