Austere - To Lay Like Old Ashes

The language of *Draugaborg* is *Draugskur*. The demonym is *Draugaborgskúr*(male) or *Draugaborgskö* (female), both plural and singular. The adjective is *Draugaborgar*. *Draugskur* is a constructed and artistic language created by me, and is based mainly on Icelandic and Russian. Please note that its systems and grammar may be modified, so certain posts will be rendered void in retrospect.

You broke my streak ☐ I was waiting for someone else to post during my streak.

I'll give that song a listen.

Edit: I need to give Aviv Geffen a listen. His voice sounds cool.

C-c-c-combo breaker! Sorry I had to say that ☐
The whole There Is No Beauty Left Here... album is beautiful.

Anyways the current song
"Ljós Í Stormi" by Sólstafir

Opening track of Svartir Sandar. Some really good psychedelic music.

I was going to say the song lost me at the vocals, but then I realized I [like this](#) and I'd be full of crap if I couldn't handle those vocals. Then I actually appreciated the song, even if I didn't listen to the whole thing in full detail.

That's a good song. I got recommend Solstafr recently, but I have only listened to about half of one of their albums.

Holy crap. I recently hit 1,000. Almost 1,100 now, but yeah. It's just because I've been going through albums and adding the various songs to favorites for the hell of it. There's really no reason for it.

I've heard Svartir Sandar and Köld completely and I've heard one or two of their black metal era songs.

As much as I shouldn't like the line, I love the line "We are a fucked up generation". This song is fitting for America, and I wouldn't be surprised if it was written by Aviv Geffen, who lives in Israel, which tends to be violent, which is fitting for the line 'in a violent place we can call our country'

Fjara: 4/5

Þín Orð: 5/5 one of the best on the album.

Kukl: 3/5 weakest song if spoken "Stinningskaldi" is not counted.

Æra: 5/5 another really good song from the album.

["Stúldt Håjt" by Kingston Wall](#)

Mixture of techno and psychedelic India influenced rock. The best one on Tri-LoGy.

Heck yeah. I thought so too when I first heard 'em, which was a little less than a year ago. They're considered a part of the Powerviolence genre. Think what you want about *that* name. They're also a local band, but I'm actually not very familiar with the Chicago music scene in general, and even less so with our hardcore scene.
