One person can't just represent 200000+ nations. Stereotypes don't work here...right? Unless “representer” is the demonym of NationStates. But that's as false as “toddler” being the demonym of TRR.

U.S.S. UNITED STATES (CVA-58)

"GONE, BUT NOT FORGOTTEN"

□ □ □ □ □

Intended as the first of a new class of "supercarriers" for the United States Navy under the administration of President Harry S. Truman. Her design was notorious for lacking an island superstructure and its unconventional deck layout, which would not be seen in the succeeding Forrestal-class.

In 1949, only five days after United States' keel was laid down, she was cancelled by Secretary of Defense Louis A. Johnson as part of a campaign to cut down the naval budget and advance the development of airborne nuclear deterrence via long-range bombers.

Very descriptive I would say

La Ferra Suprema Reigns Supreme over the vast lands of Stella Nera
A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Humanity First!
