Monkey 92 chewed his own flesh off shortly before gouging his eyes out after taking too high a dose of datura, after which he proceeded to have a heart attack because a sadistic person found him and decided to torture him in the most excruciating way monkey possible. Imagine being tortured into a pain induced heart attack while on datura.

Monkey 83 has had enough of the gruesome deaths of all his monkey friends and decides to confront the one behind them.

Cue epic training montage

He threatens to kill people in order to obtain information as to who might be in charge of these killings. The cops are after him, but this is a suicide operation.

Okay, im gonna cut this epic tale short. I dont have motivation to write good stories right now, sorry. Monkey eventually finds the root of all these cartoonishly brutal murders and doesn't hold back. He is the strongest, fastest, wittiest monkey in the world at this point (despite being among the last monkeys), and he uses every ounce of his power to fight:

ME.

Yes, the strongest monkey out of 83 is fighting me. And he fights valiantly! With a mane flowing in the blowing winds, and only a loin cloth covering his heroic build, monkey 83 truly depicts the glorious hero we all look up to as youngins.

Unfortunately I take monkey 83 and stick him onto a pike Dracula style and pour acid all over him before setting him on fire. and just before he died i blow him up with 100000 nukes.

Monkey 82 builds a time machine to warn the monkeys of the genocide. Unfortunately for him, a mishap causes him to be transported to europe in the 1300s, where he catches the bubonic plague and dies

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

Monkey 79 was realizing that there are barely any monkeys left, so he tried to revive 100 monkeys to try and make sure the monkey species didn't go extinct. He was almost done reviving the 146th monkey but was then crushed by Monkey 64s obesity. Thankfully Monkey 64 is completely fine.

One of those clones of 146 woke up early and broke out of their containment cell, but because of how cold it was they died of hypothermia... right next to monkey 76's dead body trying to loot it, speaking of which....

monkey 76 was a scientist at the seed vault, but was shot to death by monkey 77 as he broke in to take over the site for himself.
