Don't forget the hundreds and hundreds of 'creative' people creating 'AU version of Nazi Germany where they won WWII' nations.

Well at least before the mods cracked down on Nazi nations.

And it was like always 'Nazi Germany won and now they've completely conquered the world', you basically never saw something like 'Nazi Germany won and now almost the entirety of Europe have either been annexed into the Reich or are their puppet states and they're in a Cold War with the United States and its allies in an analog of the RL Cold War'.

i had something like that a while ago. basically, the world got destroyed by a nuclear apocalypse and a crazy hitler-worshipping cult emerged in what used to be germany. they thought the "bolsheviks" and "jews" were actually interstellar galactic empires that ganged up to destroy the nordic-galactic empire (of which hitler was the only survivor) and hitler was chosen by the old gods to become a new god and completely wipe out all traces of the old world with insane god powers to start the world anew. goebbels, himmler, speer, and goebbels were all worshipped as four divine angels of the cardinal directions of the world. eventually the holy order would collapse into violence unseen in european history.

the original premise was "what if those batshit nazi theories were true" but it evolved into something... *relatively* more reasonable.

From what I understood and from past events, this kinda thing has happened before due to someone mentioning it on Reddit and the like. It probably went into the realm of "specialness" because it's from a YouTuber, not from some random who name-dropped it.

Mind you, not that I watch Drew's stuff, so I have no strong feelings for or against him; neither his fan, nor hates him.

I'm still not entirely convinced that Drew Dumil even exists tbh.

There's tons and tons of these alleged 'popular' YouTubers with hundreds of thousands or even a million subs and yet not once have I ever heard of anyone ever talking about them in my life.

Like that Dream guy or whatever. Literally never heard of him in my life and suddenly he has like 30 million subscribers?

I'm not buying it. None of these people are real, everyone is just gaslighting me.

I know like 3 people who joined due to Drew . The only "big" thing that

happened due to the Drewpocalypse was that the servers crash.

Here's a cliché. People randomly godmodding nukes in the Texkentuck rp. Random people are like "Johndoelandia shoots 100,000 nukes at Texkentuck" That's not an exaggeration.
