The colours are all neutral/un threatening and there isn't any violent or dangerous imagery. Kind of disappointing, a nations flag should be at least a little threatening.

I use NS stats for the most part, excepting where issues and stats dont make sense with my Nation's setting.

My Nation is roughly based on my actual political beliefs; it is a form of Socialist Republic, in which citizenship is granted for government service (either military or civil, think Starship Troopers), with a very heavy environmentalist and conservative bent.

9 out of 10?

What's wrong with it?

Flag just seems weird, like in a killer clown way.

Well, it seems like they want to make every powerful character female these days, no idea why.

There is no divine feminine.

My nations policies are not economic, but a deliberate attempt to kill of the spirits and the sacred forests of the Pagan rebels.

My nation does NOT represent my RL views.
