You ever listen to any of the bands in my stupidly large list I sent you, Echowelt?

Earth-Tibetan Quaaludes

Of course i do, i try to go over most of the suggestions but its really hard withe the influx of suggestions. Right now I'm on Earth.

Well, with 'weird metal', I sent you an awful lot, so if you don't go through them all, it makes sense.

I usually forget to go through stuff when people send me a bunch of things, especially when I'm backlogged as is.

I could listen to BM now, but I'm in a mood for slower music so I'm still on Earth.

I got into slower stuff from my chess tutor. Always good to play chess with Doom.

I have bookmarked it all. I have a huge musical to do list.

On an unrelated topic does anyone play instruments, myself: vocals, guitar, bass, keyboard, drums.

I've listened to a lot of relatively mellow stuff recently, so I'm kind of tired of mellow music, but doom metal/drone metal works fine for me right now.

Damn, nice.

For me, instrument-wise, I've pondered the idea of playing guitar and keyboards before, but well, I am way too lazy and have attention problems, so I never actually get to playing the damned things. Recently I've been wanting to play drums, as well.

My dad has all sorts of weird instruments, so I should really play more.

I sing, but only to the music I'm listening to. Pretty sure me being a vocalist would be scary...I find it fun to try and sing along to all different types of music, even ones I can't pull off well whatsoever, but I would never be a vocalist for anything.

I was raised and promoted to be musical. But for vocals I find its part natural talent and mostly practice makes perfect. Just wondering are you male or female? (Thinking about vocals that's why I ask)

We have released no material yet. We've been on a year-long hiatus that is set to end next week.

I...don't know. Should have mentioned that I just started lessons in May. ☐
But I've learned several songs already.

An instrumental interlude we recorded over 2 years ago with an almost entirely different lineup, under a different name. Hardly material.

Yeah. Mine unfortunately became rather popular locally, and unfortunately people want similar stuff from the new releases but that's not going to happen.

Link? My band has had a pretty rough road of hiatuses and lineup changes and money issues and booking problems. We last went on hiatus back in January, and we are currently planning to reunite next week with a new style, new name, new second guitarist, new

drummer, and new clean vocalist. So yeah.

I removed it and now about 50 people have copies that I want to get rid of. When I finished with my album (work in progress) I'll share it here.

Edit: The reason why is the music in general is immature. If anyone knows the story of Hellhammer / Celtic Frost they'll understand. It was satanic and immature. I just want to dismiss it and move forward.
