Monkey 1694, upon learning there is no known 1696, spent all his life trying to figure out the missing link. He was last seen on a beach.

Monkey 1685 jumped off a building because he had superhuman (supersimian?) invulnerability. Or at least that's what he thought when he stopped taking his meds.

Monkey 1679 died of old age at the age of 90 after surviving hundreds of attempted assassinations from the CIA.

This country does not follow my beliefs, but rather something I would find interesting.

Political Compass: -5.75, -4.87

Prorescia is a tourist friendly nation that has some of the most beautiful forests in the world. It controls a small part of current day Brazil about the size of French Guiana and is largely rural because of that with only 3 major cities, Santo Tablo, Pacifil, and Consanto Praia. The Government is Democratic and led by a Council who make most decisions. However, 5 democratically elected representatives can at any time call for a lack of faith vote which would impeach a current council member. The lack of faith vote is voted on by the populace which number in the thousands.
