I err... I thought of a mix between a Valkyrie and a Native American warrior woman. The results are awesome!

Propaganda posters

Lescaaris, a progressive democratic-diarchic merchant republic in the near-future "post-post-apocalyptic" America, where society is rebuilt and new nation-states have been created while the United States government is nowhere to be found (I doubt the setting is really important and relevant though). Famous for European architecture, EDM, nightclubs, civil liberties, job opportunities, and trade fairs.

(To get a general theme-idea, Lescaarch culture is a combination of Dutch, Italian, Belgian, Monégasque, and French cultures.)

It's interesting, it uses its country borders on the flag which is a usual no no for flags but in this case its almost working.

We are not an apolcypse themed nation anymore read my factbook. I barley follow nation states stats. We are an Empire that gives civil rights and there no problem with that. We are advanced and would like anyone who wants to be friends to telegram us.
