The National North German Party (NNGP) dominates North German politics, as it has 134 seats in the Reichstag (North Germany's Lower Chamber) and 17 seats in the Bundesrat, with the NNGP being the party with the most seats in both cases.

Their standard model of anti-ship missile features a Javelin-esque alt mode, wherein the missile attempts to strike its target from above. Except this concept is executed using a supersonic cruise missile. That is about six times as long as the Javelin *launcher*. Yeah alright.

The Inkopolitian-British War was fought between the Kingdom of Great Britain and Queendom of Inkopolitia between 1709 and 1718 over a British claim that Inkopolitian piracy had threatened British naval trade in the region. The war ended with a British victory and the formation of the Crown Colony of the Inklelings and Octolings.
