It is not a government at all; rather, it is a multi-state sponsored but ultimately independent private entity providing commercial extraterrestrial travel and shipping, as well as producing commercially available models of spacecraft.

I don't have a strong personality. In fact, I'm just plain rude.

Asouzu's Flag, in terms of design, is quite unorthodox compared to other nations. Additionally, it utilizes colors seldom used in other flags and instead seems to point at a government that is both non-traditional and loose in its hand. Additionally, the twin cats of Asouzu tend to point to a more Eastern than Western aesthetic. Thus, judging solely by the flag I would say that Asouzu is an avant-garde anarchist state which prioritizes artists and artistry.
