Kendrick Lamar - i

Interesting sample for this song...it's different but I like it. Certainly not what I expected.

Dat 4th verse tho...

*Wise men speak because they have something to say; fools because they have to say something. - Plato*

Eight Dayz - What's so Strange About me?

by Wilgrove » Wed May 26, 2010 7:51 am

OMG, It's so obvious! Of course!! Science has lied to us!!!

It's time to abandon scientific progress and only look towards the Lord Jesus Christ (who is white of course) for guidance in all matters!

1812 Overture

The Serene and Glorious Reich of Nazi Flower Power has existed for longer than Nazi Germany! Thank you to all the brave men and women of the Allied forces who made this possible!

Kendrick Lamar – Sing About Me, I'm Dying of Thirst

I'd consider this one of the greatest hip hop songs ever recorded.

Altar - *Throne Of Fire*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
