*\*tappy tapp\**

BN: Keep in mind, while it's currently mild and warm in the NE cities now (check the News [Full] section, which is a lie because it's literally a weather report; I was busy recently having not much energy to add the headlines), a few days ago some cities experienced morning frosts (akin to March and April), and most cities are around 4-6 degrees below the May long-term average, with a crap-ton of mountain snow.
