Religious values not laws, and why should I deny them basic services? Do I have to lock them in prison and execute them just because they can't get married? Of course, part of religious values is traditional marriage. Religion isn't enforced, but the values are a part of society.

Kal'Shazzar does not care. You're basing certain repressive laws on your religion, which he considers to be just as bad. He's calling you out for saying homosexuals should not be discriminated against while also discriminating against them.

Kal has his flaws, sure, but inconsistency gets him into a surly mood.
