### The Knife-Networking

6th band to hit over 100 scrobbles on my playlist.

Which really, isn't that much if you look at what some of my friends have in scrobbles for one band. But I jump around a lot so 6 of those above 100 is a lot for me right now while exploring music.

Meanwhile, my Deerhoof is taking off above everything else.

Edge Of Sanity - 15:36

“ **CVT Temp wrote:**  
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

The Knife-Stay Out Here

Yeah it sounds completely different from, like, anything. I know the Mogwai guys hang out a lot with the Fuck Buttons guys, maybe they've had some influence over this track

Hmm, that seems like a logical thing, with the electronics in that song and all.

Whatever it is, it works, and Mogwai is yet again evolving further.

I kind of feel like listening to Mogwai now but I need to go through more music after I'm done listening to The Knife and maybe Fever Ray again.

The Knife-Ready to Lose

Is it just me or has like, every The Knife album managed to get better then the last one? This new one is great.

And Fever Ray's album is one of my all time favorites now, too.

God damn, so many albums I need to add to a list to buy.
