Jesus, my computer is freaking testing my patience and anger issues right now. It had some more problems while I was trying to post, so I switched to the crappy laptop...It wouldn't even freaking stupid the god damn browser because it kept crashing (That computer has freaking stupid memory issues). Technology is pissing me off tonight.

Sorg Innkallelse, 3 albums of Iranian black metal. Which is basically just like Norwegian but from Iran   
Even the band's name is Norwegian, meaning Grief Summon.

Yes - Astral Traveller

Still three albums to go. Because those three come after this one, one song left on this.

Not a bad random choice ☐

Birdy-Skinny Love

Well that was quick...It's 2:30 AM on my side of the US, and the Birdy album that was supposed to come out in the US on June 3rd is already out on Spotify.

Rdio has it too. Might have to listen to it later.

A Tribe Called Quest - Verses From The Abstract

Couldn't decide on jazz or rap, so jazz rap it is. ☐

A Tribe Called Quest - What?

Hmm...leaning towards a 10/10 for this. I have no complaints with this album; it's an epic, chill, artistic album. Excellent rapping, great samples, production overall is flawless IMO.

EDIT: Last track just came on; definitely 10/10 for this album.
