I've never seen someone correct themselves in a signature before. If I did that, I would have probably asked better questions than "Are you aggressively coked-out?".

No wonder no-one wants to come to my shithole of a region.

The potentially man-eating pterosaurs (such as azdarchids) avoid the cities for the most part because of there being just that many people (and also because it would be far too easy for a large pterosaur to run into a skyscraper); *although*, the piscivorous ones *do* in fact like to hang out near the docks (for obvious reasons), which can cause some mild shenanigans occasionally...

I can respect a person who memorizes Bible quotes because they use them for NationStates and not so they can accurately quote Samuel L. Jackson from *Pulp Fiction*.

Welcome to the home of all the cheese you could ever dream of! Scytharum has many vacation spots, protected civil liberties, a strong and capable military, and many opportunities! Get yourself some Scythaic cheese today and indulge in the cheddar capital of the world! We're much, much better than the German and Ottoman Empires in our liberties and cheeses, what else could one ask for?

Also, I changed Scytharum's flag to look less authoritarian. The old flag isn't gone, since it's the new War Flag, but the new flag should hopefully not be screaming "human rights violations".

The "j" is pronounced like a soft "g".

It's also both an autonomous republic in the northeast of Syria that is majority ethnic Kurd.
