None left to damage; they were all destroyed in the Great Terran War of 2020.

Killing a cop and his family while they're having dinner.

I no longer use this nation.

Two hours in the time-out chair. While murder isn't illegal and cops are just tools of the capitalist elite who should be murdered, it's considered very rude to interrupt people while they're having dinner and so you'd have to sit in the time-out chair.

Misgendering someone?

Official name of nation is **The Democratic People's Republic of Aotearoa.**

Talking about fake genders and other leftist delusions with great pride and shamelessness is a one-way ticket of getting you sent to a mental ward.

Brutally torturing an atheist.

Intentional livestock abuse = 10 lashes and exile from that locality.

Driving drunk and causing a wreck, no fatalities.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

You'd get a suspension and administrative leave after the ending of the suspension, lasting about a year.

Unintentionally causing the critical condition of a classmate after "pranking" him by tripping him, landing straight on the head, likely causing brain damage. (This nearly happened to me, luckily, my knees were in the way.)

Outside of a fine for assault, you might get a good smack in return from the PM.

This is a long one, so bare with me:

A woman walks up to her husband/boyfriend/brother/etc. and tells him "X" raped her, the man then turns and murders "X" (Consider, if you want, that this is legal, self-defense of a loved one, the man is NOT going to prison for this), but then, after an investigation, it's

discovered that the woman had personal issues with "X", and made the whole story up to get revenge from "X". Punishment for the woman.

For the man? He won't get in trouble but if he can get that angry we will give him the option to join our commandos because anger can be used, his choice if he wants to join or not. For the woman? She will be arrested charged with murder, manipulation to have some else commit a crime, and potentially spying on the Academy if the person worked for us.

As per the *Use of the Olpenese Flag Act*, buring the flag is seen as an expression of freedom of speech and therefore not punished if you are a civilian. If you are employed by the government, you may be fired as per *Langlon V. Coral National Guard*.

It depends. If you've been authorised by the Party to do so in order to scam the outside world and artificially game markets so that we are able to obtain more foreign currency, then it's fine but if a private citizen does it then they'll probably end up being sent to a ~~labour camp~~ "Kindness Centre" for illegal capitalist activity.
