9/10 looks like the flag of an antagonist faction in a video game.

A post-apocalyptic nation located entirely within a megastructure amidst a burning Earth, in a world where reality barely holds together and magic arises from the cracks.

Western imperialist scum.

A nation of Slavic Mars' colonists who escaped from the nuclear apocalypse of Earth. We have not the Fully Automated Luxury Gay Space Communism (and we will never be gay). Our ideology.  
The nation doesn't represent my views. It was created for artistic purposes and it's 0% political.

**Amurespublika**

A mountainous country in North-East Asia, founded after a global nuclear war. An artificial God was made incarnated into the absolute monarchy, enforced miscegenation created a 100% mixed race population, the state was abolished, a 10km high skyscraper with a space elevator on top was built in the capital as a gateway for space exploration and colonization. In fact, space is a huge part of Amur culture, which is also a fusion of Soviet/Russian, and East Asian with slight European influences and Nazi Lunarpunk aesthetics.
