They superficially share a timeline with our own reality, although a few deviations exist to make theirs possible. Additionally, many of their celebrities are dedicated to activist lifestyles.

A large majority of the Kronovan people (81%), identify themselves as being agnostic, irreligious, or atheist. A factor of why a large portion is like this is because of the State policy of State Atheism, where religion has no place in political society. The other is the occupation by the Chalian, who tried to merge the Kovac and Chalian church into one, so as to further their own rule.

The country is split between the North German Federation and South German Confederation. One is a run-off-the-mill Hohenzollern Prussian Germany while the other is a weaker Habsburg, south Germany where their main strength seems to be in culture and industry.

I feel like this could be another **Nationales Deutsches Reich** in the making.

The Rudowski dynasty were a dynasty of monarchs who once lorded over Polish-Lietuva from 2036 until 2049. They ousted republican rule in favor of an autocratic monarchy where such system became mired in decadency and corruption which led it to its demise during the Intermarian Civil War.

Perhaps unsurprisingly, Kronovan cuisine follows the very archetypal patterns of Northern European dietary trends. Lots of hearty, relatively unseasoned dishes based on wintering vegetation, potatoes, wheat, red meat and the like.

Vistora is a city-state encompassing an island. Like most city-states, its main function is dealing with finance, in that it is situated in the convergence point of the Old World's most important maritime trade routes, enabling the diminutive isle to act as an international hub for trading and commerce since antiquity.
