The right kind of ambient music is beautiful ☐ And meditative.

Or drone, or dark ambient, or noise, or whatever.

I'm always looking for nice ambient tracks to fill the background with out distracting me.

I have a Spotify playlist with nearly 500 ambient, dark ambient, noise, drone, and so on tracks (not very organized yet), so I could probably share something with you if you would like.

And that's me only posting about half from each album I've listened to. I go with posting the 4 best from an album (If the album is anywhere from 4 to 11 songs long), or 6 (If it is 12 to 15 songs long), and 8 and you get the point. For whatever reason I like posting album songs in even numbers for a compilation of the 'best' in these genres and whatnot. Even though if it is, say, 14, I could just post 7...No real good reason for me specifically doing even numbers.

Tim Hecker-Acephale

In fact, Tim Hecker is a pretty good ambient/drone/dark ambient/some noise artist.

Metallica - Master of Puppets

I used to listen to this song 5+ times a day and I knew the lyrics forwards and backwards. Well, back in 2007 that is.

Drone, glitch, and ambient go well together.
