Simon & Garfunkel - Bridge over Troubled Water  
From *The Concert in Central Park* (1982)

*When you're weary, feeling small  
When tears are in your eyes, I'll dry them all  
I'm on your side, oh, when times get rough  
And friends just can't be found  
Like a bridge over troubled water  
I will lay me down  
Like a bridge over troubled water  
I will lay me down*

*Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.*

Billy Joel - The Stranger  
From *The Stranger* (1977)

*Well, we all have a face  
That we hide away forever  
And we take them out  
And show ourselves when everyone has gone  
Some are satin, some are steel  
Some are silk and some are leather  
They're the faces of a stranger  
But we'd love to try them on*

*Well, we all fall in love  
But we disregard the danger  
Though we share so many secrets  
There are some we never tell  
Why were you so surprised  
That you never saw the stranger  
Did you ever let your lover  
See the stranger in yourself*

Maroon 5 - Won't Go Home Without You  
From *It Won't Be Soon Before Long* (2007)

*The taste of her breath  
I'll never get over  
The noises that you made kept me awake  
Oh  
The weight of the things that remained unspoken  
Built up so much it crushed us every day*

*Every night you cry yourself to sleep  
Thinking: "Why does this happen to me?  
Why does every moment have to be so hard?"  
Hard to believe that*

*It's not over tonight  
Just give me one more chance to make it right  
I may not make it through the night  
I won't go home without you*

Ed Sheeran - Photograph  
From x (2014)

*We keep this love in a photograph  
We made these memories for ourselves  
Where our eyes are never closing  
Hearts are never broken  
And time's forever frozen still*

*So you can keep me  
Inside the pocket of your ripped jeans  
Holding me closer 'til our eyes meet  
You won't ever be alone, wait for me to come home*

Elton John - American Triangle  
From *Songs from the West Coast* (2001)

*'Western skies' don't make it right  
'Home of the brave' don't make no sense  
I've seen a scarecrow wrapped in wire  
Left to die on a high ridge fence*

*It's a cold, cold wind

Art Garfunkel - Bright Eyes  
From *Fate for Breakfast* (1979)

*Is it a kind of a dream  
Floating out on the tide  
Following the river of death downstream  
Oh, is it a dream?*

*There's a fog along the horizon*

*A strange glow in the sky  
And nobody seems to know where it goes  
And what does it mean?  
Oh, is it a dream?*

Procol Harum - A Whiter Shade of Pale  
From *Procol Harum* (1967)

*We skipped the light fandango  
Turned cartwheels 'cross the floor  
I was feeling kinda seasick  
But the crowd called out for more  
The room was humming harder  
As the ceiling flew away  
When we called out for another drink  
The waiter brought a tray*

Bee Gees - Too Much Heaven  
From *Spirits Having Flown* (1979)

*Nobody gets too much heaven no more  
It's much harder to come by  
I'm waiting in line*

Democratic Socialists

*Nobody gets too much love anymore  
It's as high as a mountain  
And harder to climb*

*Oh you and me girl  
Got a lot of love in store  
And it flows through you  
And it flows through me  
And I love you so much more  
Then my life, I can see beyond forever  
Everything we are will never die  
Loving's such a beautiful thing  
Oh you make my world, a summer day  
Are you just a dream to fade away*

Houwitser - *I Shape The Suffering*

**CVT Temp wrote:**  
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

*This is one for the good days

Jason Mraz - I'm Yours  
From *We Sing. We Dance. We Steal Things.* (2008)

*Well open up your mind and see like me  
Open up your plans and damn you're free  
Look into your heart and you'll find love, love, love, love*

*Listen to the music of the moment people, dance and sing  
We're just one big family  
And it's our God-forsaken right to be loved, loved, love, love*

*So I won't hesitate no more, no more  
It cannot wait, I'm sure  
There's no need to complicate, our time is short  
This is our fate, I'm yours*
