AN: Honestly... generic European country #1510. The Star makes it look like maybe America influenced it oddly enough, but other than that, it wouldn't really stand out.

☐ Holy Federation of Stars ☐
We shall march through the storm, Jesus by our side.

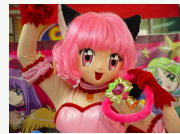

In a galaxy where humans were lifeseeded on 12 planets, a federation with a ceremonial religious head of state has united 8 of them. Religious, Ethnic, and Political conflicts are practically an every day thing and the threat of alien invasion has caused paranoia and xenophobia among the population.

Wexas' attempt at FT. No funni powerwank/"sexy" aliens for me.

IC Year: 2410 | No NS Stats

Not really for/against Christianity or any political ideology, I just thought the idea was neat.

I like TGs, give me them. (You get a cookie if it's Semi-IC/Lore-Related)

Lescaaris, a progressive democratic-diarchic merchant republic in the near-future "post-post-apocalyptic" America, where society is rebuilt and new nation-states have been created while the United States government is nowhere to be found (I doubt the setting is really important and relevant though). Famous for European architecture, EDM, nightclubs, civil liberties, job opportunities, and trade fairs.

(To get a general theme-idea, Lescaarch culture is a combination of Dutch, Italian, Belgian, Monégasque, and French cultures.)
